**Discussion Questions:**

1. What is the significance that Middle East issues are spiritual and not ideological, theological and not political and prophetic and not random?

---

---

---

2. What parts of the Abrahamic Covenant are now fulfilled? What part still awaits fulfillment? How does this understanding help us understand what's going on in the Middle East? and what will go on there? Will Israel giving up any of her currently possessed land ever broker peace in the region? Why or why not?

---

---

---

3. Discuss the Canaanites, the Japhethites and the Shemites. What can be learned about decisions? God's grace? God's choice?
